

Euro Pillar Lite

Cat. No. EPIL

Cat. No. EPIL/R

The Euro Pillar Lite illuminates both upwards and downwards giving columns, gateways, pillars and entrances a dramatic effect. Hunza Euro fixtures use miniature MR11 lamps to achieve a contemporary, discreet appearance but are still able to provide excellent illumination.

The Retro™ is a 110/240-12 ac mains option suited to an installation where mounting a transformer is a problem, e.g. a brick wall where there is only the cable protruding out of the wall and it is not an option to recess the transformer or when replacing an existing light fitting. The base size increases in size to accommodate the encapsulated IP66 dimmable transformer.
