

Spike Spot

Cat. No. SS

Cat. No. SSGU

Cat. No. SSMH20

Cat. No. SSMH35

The Spike Spot is inserted into the ground and can be easily aimed by angling the luminaire in the desired direction. This fixture uses an MR16 lamp and is ideal for illuminating bushes and trees from ground level.

The luminaire is machined from a choice of 10mm solid aluminium with a UV stable powder coated finish, solid copper or 316 stainless steel with a clear, tempered, flush glass lens and high temperature silicon gaskets.

A GU10 version of this luminaire is also available for line voltage lamps. However, a longer luminaire body is needed to accommodate the longer lamp. The Spike Spot Metal Halide is extremely energy efficient, outputting 2-3 times the light of a halogen lamp, and uses a GX10 20 or 35 watt lamp.
